

Dracula Ride 2026

"To travel is to discover that many people are wrong in what they think about other countries" - Aldous Huxley knew. And Bram Stoker was so fascinated that the incredible beauty and mystical Carpathians, with all their legends, inspired him to write "Dracula".

Experience Romania - the home of Dracula - up close with us. Our ride takes us through the south of Hungary with its vast plains, crosses the Danube by ferry and dives into the wild forests of the Carpathian Mountains. On winding pass roads, along rivers, through gorges and pristine villages, we follow in the footsteps of Vlad III Dracula - better known as Dracula.

We cross some of the most impressive regions of Eastern Europe: Banat, Transylvania, Wallachia, Bukovina and Maramureș. The program includes legendary passes such as the Transfăgărășan, the Transalpina and the Transrăul - all over 2,000 m above sea level.

From Dracula's birthplace Sighișoara to the famous Törzburg castle in Bran, to the island of Snagov, where his presumed burial place is located - the scent of Dracula will be omnipresent. The program is complemented by many highlights, such as the "Thorenburg Gorge" (Cheile Turzii), the "little Paris" of Bucharest, wooden churches in the north and historic monasteries.

At the end of the trip, we return to our starting point through the Hungarian Puszta National Park - with many new impressions, friends and stories in our luggage.

Traveling safely in a convoy - that is our credo.

Our groups consist of participants with the same philosophy: enjoying motorcycling together, starting the day with curiosity, discovering countries, experiencing landscapes, getting to know places and hearing stories. These experiences make our rides unforgettable. We want you to go home with lasting memories and unique pictures.

But community also means contributing meeting new people, making friends, laughing, riding and experiencing together.

Combining driving dynamics and the magic of curves - but only with respect, consideration and a portion of generosity.

Our rides are neither driving training nor a race camp. The speed is determined by the road captain - his goal: to lead the group safely to its destination.

Consideration is a matter of course - if the convoy works. We expect you to prepare yourself for this challenging tour:
